# EYETAP ENGINEERING SERVICES

## Plant & Equipment Portfolio

Building with Innovation • Powered by Technology

## About Our Equipment

EYETAP ENGINEERING SERVICES is equipped with state-of-the-art facilities, ranging from laboratory tools and analytical software to heavy-duty machines. These are operated by highly qualified professionals with extensive industry experience. Our substantial investment in modern plant and equipment enables us to efficiently serve diverse client needs across multiple sectors. All equipment operators are thoroughly trained to ensure safe usage, while only the most skilled personnel handle precision and finishing tasks on projects. We continuously improve our methodologies, including advanced steel construction techniques and computerized building models.
